

2017 County of Northern Lights Seedling Order Form

(County of Northern Lights Agriculture Department)

Name:	
Mailing address:	
Town or Village:	
Postal code:	
Phone:	
<u>PLEASE</u> provide e-mail:	

Orders will be accepted until April 1, 2017, species marked with an * have limited quantities, when the limited quantities are spoken for a waiting list will be created – but no guarantees.

Seedling trees will be available at the end of May 2017.

We reserve the right to substitute species (ie. Lilac may be either Common lilac or Vilosa lilac Pussy willow could be substituted for Golden willow) due to potential availability issues.

Seedlings must be pre-paid and picked up at the County of Northern Lights office.

Minimum order is one bundle (10 or 15 seedlings), and orders need to be per bundle i.e. 4 bundles White spruce and 3 Siberian larch (for a total of 60 spruce and 30 larch)

Species	Seedlings per bundle	# of bundles	Cost per bundle	(# bundles X cost per)	Initial quantity of seedlings
White spruce	15		\$4.00		Unlimited
Lodgepole pine	15		\$4.00		Unlimited
*Blue spruce	10		\$3.00		500
*Lilac	15		\$4.00		450
*Siberian larch	10		\$3.00		500
*Golden willow	10		\$5.00		200
*Northwest poplar	10		\$5.00		200
*Green ash	10		\$5.00		200
			Total cost + 5% GST

County signature:

Payment of \$ _____ received on Day _____ Month _____ 20__

If either of these become available, please indicate if you would be interested in:

Highbush cranberry (Pembina); bundles of 10 \$5.00 ea.

I would be interested in _____ bundles

Dogwood; bundles of 10 \$5.00 ea.

I would be interested in _____ bundles

PLANTING RESTRICTIONS – PER County of Northern Lights

Information on tree plantings given to County of Northern Lights landowners will include the following recommendations:

- Plantings along the roadside must be at least 30 m from the property line or 40 m from the middle of the road (unless otherwise approved).
- Plantings perpendicular to the road must be at least 15 m from the property line.
- If a powerline is close to your planting area, you must stay 15 m away from it if you have trees that will grow in excess of 13 m in height. You may plant shorter shrubs (e.g. dogwood, lilac, etc.) nearer the lines.
- Landowners should consider the size of their largest implement (and future implements) when planning the layout of the shelterbelt. Make sure that you will have enough room to move equipment freely when the trees are fully grown.
- Exceptions to planting restrictions may be approved by Council on an individual basis. Form M must be completed, signed and approved.

Cautions for Town and Urban plantings especially:

These trees will provide beauty and fantastic shade some day, but be sure to plant them where you'll be grateful to have year round shade. Lodgepole pine, White & Blue spruce, Siberian larch should be planted 12 to 15' apart. The willow, poplar and ash should be planted 10' or so apart.

When choosing planting sites keep in mind that these tiny seedlings could grow to become massive trees, Spruce, pine & larch have the potential to grow to 60' in height, 20' in diameter with roots that may extend twice as far as their height. Don't plant these seedlings close to current or future building sites as the roots can ruin foundations and basements.

Keep them away from sidewalks, driveways and boulevards where the branches might pose issues and require trimming. Keep them away from overhead power and phone lines, and don't forget what's underground either, in 15 years will they have to be destroyed because they are ruining the sewer system, or because the gas or water line needs repair?

Questions, concerns, or to submit order form please contact or send to:
