Toll Free: 1-888-525-3481**

# Program Details

Residents must contact the County office and inform the Public Works Department of their desire to have a snowplow sign. Please ensure you have your legal land description and rural address ready. Once the County has the required information, a field representative will come and assess your driveway to ensure a County grader can clear the driveway free of obstructions such as low hanging trees, power lines, etc. Residents will then sign a contract and receive their personalized permanent sign. When you wish to have your driveway cleared, you must put your sign out at the end of your driveway. The grader operator will plow your driveway and you must pick the sign up yourself, the grader operator will **NO** longer pick up your sign. Residents will be billed once a month ONLY for the number of times their private driveway was plowed in that month. Landowners who owe the County will not be given a sign until all overdue accounts are paid in full. A recommencement fee will also need to be paid. Renters must have the landowner apply for the sign, we will not be assigning a sign without the landowner.

## Questions and Answers

### 1. What are the County's snowplowing priorities?

The County's priorities are as follows:

- A. Main Routes
- B. Roads to occupied residences and school bus routes.
- C. Flagged driveways

### 2. I have my sign out and the grader went right by. Why?

The top priority after a snow fall is to get a travelling path cleared on the roads. Once County roads have been opened, the graders will go back around and clear driveways. Also, graders will only clear driveways while in the immediate area, and will not make special trips to clear private driveways.

### 3. My neighbor is snowed in can I let them use my sign?

No. The new signs are yours permanently and are billed to your rural address. If you place your sign on another driveway the grader operator will not plow it.

### 4. I lost my sign, can I get a new one?

A replacement sign is the responsibility of the landowner. Call the office and we will order you a new sign after you pay the \$50.00 replacement fee.

**The County of Northern Lights is not responsible for the snowplowing of any major or secondary Highways.**
