### **Procedure:**

1. The municipality shall replace fencing to a standard of construction at least equal to fencing being replaced.
2. The municipality will only replace existing fences. If no fence exists, the municipality will not be obligated to construct a fence.
3. If requested by the landowner, a fence may be removed and not replaced. No compensation will be made for removal of existing fences when a new fence is not required by the landowner.
4. All fences are to be photographed prior to being removed by the County Public Works Department.
5. In the event a landowner wishes to re-install the fence him/herself, the municipality shall provide the materials and pay \$400.00 per half mile for labour to the landowner upon completion of the work within a predetermined time frame.
