

COUNTY OF NORTHERN LIGHTS

POLICY

TRAFFIC CONTROL

CREATED: 2/9/2025

REVISED:

TOTAL PAGES: 2

PURPOSE

The purpose of the program is to prescribe rules and establish minimum requirements for traffic control in operations for Alberta locations.

SCOPE

When work is performed on a non-owned or operated site, the operator's program shall take precedence, however, this document covers County of Northern Lights employees and contractors and shall be used on owned premises or when an operator's program doesn't exist or is less stringent.

KEY RESPONSIBILITIES

Managers and Supervisors

- Managers and supervisors are responsible for ensuring that all employees, and/or contractors have been trained in the procedures, equipment and PPE associated with traffic control.

Employees

- Employees are responsible for following this program.

PROCEDURE

County of Northern Lights shall develop, in writing, and implement a traffic protection plan for its workers at a worksite if any of them may be exposed to a hazard from vehicular traffic that may endanger the safety of any worker. It shall include the following control measures:

- Effective means of traffic control shall be provided whenever the unregulated movement of vehicular traffic constitutes a hazard to workers.
- County of Northern Lights shall ensure the use of signs, barricades, and other control measures to protect workers from traffic hazards. If traffic on a public highway is dangerous to workers, County of Northern Lights must protect the workers from the traffic using:
 - warning signs,
 - barriers,
 - lane control devices,
 - flashing lights,
 - flares,
 - conspicuously identified pilot vehicles,
 - automatic or remote-controlled traffic control systems,
 - designated persons directing traffic, or
 - methods described in the Manual of Uniform Traffic Control Devices for Canada (1998) and its updates, published up to and including June 30, 2009 by the Transportation Association of Canada.
- A means of communication is provided when there is more than one traffic control person. When there are multiple traffic control persons that are not working within sight of each other, an effective means of communication should be provided and used (preferably radios).
- Traffic control personnel must wear high visibility work apparel. If a worker is designated by County of Northern Lights to control traffic, County of Northern Lights must ensure that the designated traffic controller wears a highly visible piece of clothing that clearly identifies the worker as a designated traffic controller and is retroreflective if the worker is controlling traffic in the dark or visibility is poor.

TRAINING

COUNTY OF NORTHERN LIGHTS

POLICY

TRAFFIC CONTROL

CREATED: 2/9/2025

REVISED:

TOTAL PAGES: 2

County of Northern Lights must ensure that workers required to perform traffic control duties are adequately trained in their responsibilities and the safe work practices.

County of Northern Lights must ensure that before a worker is designated as a flag person, the worker is trained in the safe work procedures for the safe control of traffic operations.
